

## JT-Q933

### Integrated Services Digital Network (ISDN) Digital Subscriber Signalling System No.1(DSS1) - Signalling Specification for Frame Mode Basic Call Control

#### 1. Relation with international standards

This standard is based on the ITU-T draft Recommendation Q.933 approved at the ITU-T SG 11 Plenary meeting held in May 1995.

#### 2. Difference from ITU-T Recommendations/international standards

- (1) This TTC standard is based on main text, ANNEX A, ANNEX D, ANNEX E, APPENDIX 1 and APPENDIX 2 in draft ITU-T Recommendation Q.933 according to standardization requirement. ANNEX C (Provision of OSI connection mode network services), which is not included in this TTC standard, may be standardized in future according to later circumstances. Figures of SDL in Annex A are excepted, because they are inconsistent with main text.
- (2) Selection of optional items in draft ITU-T Recommendation Q.933 is for further study.
- (3) Annex B is deleted, because this standard is based on the ITU-T draft Recommendation Q.933 approved at the ITU-T SG 11 Plenary meeting held in May 1995.

#### 3. The history of revised

Version	Date	Outline
1	Nov. 1992	Established
2	Apr. 1996	Addition of Annex E
3	Nov. 1997	Modification of main text, Annex A Deletion of Annex B Addition of Annex D, Appendix 2

#### 4. Others
