

JT-I363.1
B-ISDN ATM Adaptation Layer (AAL) Type 1 Specification

1.Relations with international standards

This Standard is based on the ITU-T Recommendation I.363.1 approved at ITU-T meeting in August 1996.

2. Difference from ITU-T recommendations

- (1) The item, AAL2 is deleted from the above ITU-T Recommendation in this standard.
< Reason >
Specification for AAL2 has been under discussion and may be changed very much.

3. The history of revised versions

Version	Date	Outline
1	April 23, 1997	Established with invalidity of JT-I363

4. Others

(1) References

TTC Standards : JT-I361, JT-I362, JT-G702, JT-G707, JT-G711,
JT-G722, JT-I231, JT-H320, JT-H221

ITU-T Recommendations : I.356, G.823, G824, J.82, H310

- (2) TTC Standard JT-I363 (established on November 26, 1994) was set aside and divided into JT-I363.1, JT-I363.3 and JT-I363.5.
