JT-H222.1

Multimedia Multiplex and Synchronization for Audiovisual communication in ATM Environments

< References >

1.Relations with international standards

This standard describes the multimedia multiplex and synchronization of audio visual terminals (as JT-H310) on ATM. This standard conforms to the ITU-T recommendation H.222.1 which was decided in the ITU-T Study Group 15 (SG15) meeting held in November 1995.

2.Departures from the above international recommendation

None

3. Up-dating

Edition	Date	Contents
The 1st	November 27, 1996	Enactment
