JT-H244
Synchronized Aggregation of multiple 64 or 56kbit/s channels

< References >
1.Relations with international recommendations
This standard conforms to the ITU-T recommendation H.244 which was approved by the mail vote of the acceleration procedure in 1995.

2.Departures from the above international recommendation

2.1 Optional items
None

2.2 National matter items
None

2.3 Others
(1) This Recommendation has no item preceding the ITU-T Recommendation.
(2) This Recommendation has no item added to the above ITU-T Recommendation.
(3) This Recommendation has no item modified from to the above ITU-T Recommendation.

2.4 Differences from the ITU-T Recommendation on the framework
(1) Contents in the this recommendation are up to bars, however, they were mentioned up to a small bar in this standard in consideration of the convenience in use.
(2) Small bar 5.1.1.1 existed in three places in the this recommendation, because it was judged that it was an error in writing, of each was changed to 5.1.1.1, 5.1.1.2, and 5.1.1.3

3. Up-dating

Edition	Date	Contents
The 1st	November 28, 1995	Enactment
